

VacuEasylift VM120 glass panels

Project supervisor:
Stephan Guo
Shanghai HeroLift
Automation Science &
Technology Co. Ltd.

Three installations of
vacuum lifters VM120 in
Lyftman underbraced jib
arms UPM 3/60 and with
suction feet on 800 mm
yokes. Also with angle
adapter and silencing
hoods for the pumps.
All three installations are
used to handle glass panels
in different situations.
